ENSURE CMMC COMPLIANCE WITH OUR EXPERT MANAGED IT SERVICES

Defense contractors face compliance challenges, security risks from outdated measures, and resource limitations. Inadequate employee training and difficulties in implementing comprehensive security controls complicate meeting evolving regulatory standards. Limited time, budget, and personnel further exacerbate these issues. To ensure your organization can continue to compete for defense contracts, it must comply with evolving CMMC standards.

Fortunately, your organization can outsource IT and compliance tasks cost-effectively to SMS Datacenter. Our managed plans offer the framework and technical solutions you need for ongoing compliance. We can simplify the CMMC process so you can focus on your business.

ONE-STOP SOLUTION

Access a range of security solutions tailored to meet CMMC requirements effectively. Partnering with leading technology providers, we offer comprehensive services under one roof. This approach streamlines your path to compliance and ensures all your security needs are met efficiently.

COST EFFICIENCY & SCALABILITY

Reduce the need for in-house security resources and infrastructure while scaling technology services to align with your business growth. Our solutions offer robust security within your budget. We provide predictable monthly costs while cutting back on capital investments in servers, software, and network equipment.

COMPLIANCE EXPERTISE

Ensure your organization follows CMMC and other regulatory requirements by leveraging our expertise. Our team can help with navigating the complexities of CMMC compliance. This enables your organization to meet standards efficiently and effectively, thereby minimizing risks and avoiding costly penalties.

SUPPORT FOR DOD CONTRACTORS

Keep your organization eligible for DoD contracts with our comprehensive cybersecurity services. We protect your IT systems with robust safeguards, including firewalls, endpoint protection, and Multi-Factor Authentication. We also enforce permission-based policies and promptly deactivate former employee accounts.

SECURITY & RISK MITIGATION

Implement robust security measures to protect sensitive data and minimize risk exposure across your organization. Our services bolster your cybersecurity posture by safeguarding against evolving threats. We ensure your data remains secure and compliant with industry standards.

CYBER RESILIENCE & PROTECTION

Strengthen your organization's cyber resilience by protecting your workforce and securing data. Also, enhance the overall protection of controlled unclassified information (CUI) and intellectual property within the defense industrial base (DIB). Our holistic strategies ensure robust defense against evolving cyber threats.

Our CMMC Managed Services can provide even more benefits than those listed here. A thorough IT assessment by a trusted SMS Datacenter specialist is the best way to find out that our services is the right solution for your business.

WHY SMS DATACENTER?
